

I want to go on record as a huge proponent of the Telephone Privacy Act Indiana has and hopes it can be a model for all states. It is hard enough trying to attend meetings, do homework with the children, keep the home in reasonable condition: but the fact is we pay for the phone, and privilege. I don't like being insulted from persons I don't know. And especially since you cannot trust people anymore. There's a message or warning everyday about scams. Thank You and keep fighting.....
